

**BE SAFE. SLOW
DOWN IN WORK
ZONES.**

Your safety, as well as the safety of your neighbors and our workers, is important to us! We work hard to keep our job sites safe, and we appreciate your effort to slow down and use caution around the construction site.

QUESTIONS?

Call our project contact, listed at the right.

For wastewater emergencies, we're available 24/7 at 1-800-565-7292.

02-2023

We're investing in your neighborhood.
**SEWER MAIN REPLACEMENT
PROJECT TO START SOON**

Pennsylvania American Water is committed to providing high-quality, reliable wastewater service. That's why we have a proactive program to replace aging infrastructure in our wastewater collection (pipeline) system, and one of these projects is about to take place near you.

SEWER SERVICE IMPACTS

Wastewater service to the area will be maintained during construction. We don't anticipate any major service disruptions; however, once the new main is installed, the customer-owned service laterals will need to be connected to the new wastewater main. When this work occurs, there may be a one- to two-hour interruption of service. We'll attempt to notify you 24 hours in advance if any interruption is anticipated. Our crews will work as quickly as possible to shorten the length of these temporary inconveniences.

**TRAFFIC FLOW AND
ACCESSIBILITY**

Sections of street where construction is taking place may be closed during work hours. All traffic control will be coordinated with local police or road authorities. Motorists should use caution, obey traffic signs and follow detour routes when driving in the area.

NOISE

As with any construction project, some noise will be unavoidable with this project. We apologize for any inconvenience and appreciate your understanding and cooperation.

SITE MAINTENANCE

The project site will be maintained and cleaned each day before contractors have completed work.

RIPPLE EFFECT: Investments Create Jobs

Infrastructure upgrades are important investments in public health and safety; they also help support the economic health of the communities we serve. Economic impact studies show that for every \$1 million invested in water infrastructure, upwards of 15 jobs are generated throughout the economy.
